## Pensez à la planète

Nous nous engageons dans l'amélioration continue des processus respectueux de l'environnement.

En sélectionnant des tissus polyester provenant de filières recyclées, nous répondons, à notre niveau, aux exigences pour préserver aujourd'hui notre planète.

SPORTWEAR is committed to the continual improvement of environmentally friendly processes, which grows daily in our customers awareness. Our range of recycled Polyester fabrics, ECOREC, meets these requirements in fabrics for sportswear and outdoor enduses.

We work with European yarn suppliers, that support sustainable manufacturing processes fulfilling the requirements of the European Union Environmental Laws.

Le coton est une fibre végétale et plate qui entoure les graines de cotonniers. Reconnue pour ses nombreuses propriétés, elle est la fibre la plus utilisée au monde. Souple, douce et confortable, cette plante vivace est un vrai plaisir à porter qu'importe la saison.

### **Pourquoi une gamme coton ?**

### **Personnalisation**

# TECHNOLOGIES DE MARQUAGE

## MARKETING TECHNOLOGIES

### TRANSFERT NUMERIQUE DIGITALE

L'impression Direct-To-Film est une technique de marquage par transfert permettant de marquer des textiles, sans contrainte de colorimétrie (couleurs illimités).

Ce mix entre impression directe sur textile et transfert sérigraphique propose une solution simple et innovante.

S'affranchissant des contraintes que peuvent être le prétraitement des textiles ou l'échenillage, sans compromis sur la qualité.

Exemple de réalisations

### SUBLIMATION

La sublimation est une technique d'impression particulièrement adaptée pour les textiles sport, car elle est réservée aux produits composés en 100% polyester blanc.

Intégré dans la fibre, votre visuel aura un rendu idéal, avec des couleurs éclatantes, et ne se ternira pas au lavage, même à haute température.
